19th BELGIAN STROKE COUNCIL NATIONAL SYMPOSIUM

endorsed by the European Stroke Organisation (ESO)

Saturday, 5 December 2020 VIRTUAL CONFERENCE

BRAIN-HEART AXIS

Dear All,

We cordially invite you to attend the 19th BSC International Symposium which will focus on the brain-heart axis.

We are delighted to present you very practical topics relevant for daily practice brought by national and international experts! Please take a look at the program below!

The symposium will be held virtually. Therefore we have decided to limit the symposium to a morning session only. Hopefully we can have our 20th meeting next year in the format which was launched last year including sessions on stroke research and clinical trials in the afternoon.

We hope to welcome you on December 5th! Please check final program and additional details on www.belgianstrokecouncil.be.

Yours sincerely,
The annual BSC meeting committee
