

6th Belgian Scientific Stroke Workshop

FINAL PROGRAM

Friday September 15th, 2023

13h00 – 18h00

UZ Brussel - Laarbeeklaan 101, 1090 Brussel
Auditorium Kiekens – route 1001

REGISTRATION REQUIRED
FOR PARTICIPATION @
workshop@belgianstrokecouncil.be

Deadline: 10/09/2023

13:00 – 13:30 Welcome and registration

13:30 – 14:15 Keynote Lecture **Prof. dr. ir. Guy Nagels**

- “Artificial intelligence opportunities”

14:15-15:15 Abstract presentations (part 1)

- Novel targets for molecular imaging of inflammatory processes of carotid atherosclerosis: a systematic review (**Louise Maes**)
- Brain network analysis using multimodal imaging to study post-ICH seizures in the rat collagenase model (**Melissa Lajtos**)
- Functional connectivity analysis in patients with post-stroke delirium (**Fenne Vandervorst**)
- Screening for Post-Stroke cognitive impairment in Sub-Saharan Africa, a good IDEA? (**Yannick Fogang Fogoum**)
- Unraveling the role of transcription factor Prdm16 in endothelial cells during the progression of ischemic stroke (**Hannelore Kemps**)
- Brain Frailty and post stroke delirium (**Fran Capitaine**)

15:15-15:45 Coffee break

15:45-16:45 Abstract presentations (part 2)

- Utility of A2L2 score in acute ischemic stroke patient triage: the “H.uni” experience (**Pasquale Scoppettuolo**)
- Comparison between Mothership and Drip and ship paradigms in the management of strokes eligible for mechanical thrombectomy in Charleroi area (**Pierre Cabaraux**)
- Causal evidence for task regulation by anterior cingulate cortex: an experimental prospective study in patients with stroke in the frontal lobe (**Joyce Oerlemans**)
- Safety of combined intravenous thrombolysis and endovascular therapy for late-window acute ischemic stroke (**Lieselotte Vandewalle**)
- Impact of Venous outflow opacification in large vessel occlusion acute ischemic stroke (**Anissa Abderrakib**)
- Follow-Up of Brain Arteriovenous Malformations Treated with Endovascular Embolization and Radiosurgery: Diagnostic Accuracy of Time-Of-Flight MR Angiography with Gadolinium (**Uri Singfer**)

16:45-17:00 Closure

17:00-18:00 Walking dinner and networking event
